Emergency Management

With the COVID-19 Pandemic being our emergency training for the last 20 months we have had to look at a lot of our policies and how we conduct business within the municipality. The need to ensure our Emergency Management Plan is up to date as well as our Continuity of Operations Plan (COOP) was of the utmost importance. We have all learned along the way and I believe our community has become stronger. We continue to strive to keep our community safe and part of that is ongoing education and training. We remain in compliance with the municipal emergency management program through the Emergency Management and Civil Protection Act. David Jackson continues to be our CEMC-Community Emergency Management Coordinator and oversees the Community Control Group as well as training. We will be completing our Table Top Exercise which is an annual requirement on November 18. We recommend that everyone review their own Emergency Preparedness with kits and an Emergency Plan for your family. For more information you can contact the municipal office at 705-248-2441.
