BLOODWORK

By Appointment only at your local
Family Health Team Clinic

Richards Landing, Bruce Mines, Thessalon

**** You do not have to be a clinic patient****

Two easy steps:

1. Have your healthcare provider fax the bloodwork requisition to the clinic in your area, or have them print it off and bring it with you.
2. Call the clinic to book your appointment.

Richards Landing site 705-246-2477

Sheet Pan Apple Pancake with Compote

Instead of making individual pancakes, turn them into one giant apple pancake baked in the oven. Serve with apple compote and Ontario maple syrup.

INGREDIENTS

- 2 cups (500 mL) all-purpose flour
- 1/4 cup (50 mL) granulated sugar
- 2 tsp (10 mL) baking powder
- 1-1/2 tsp (7 mL) ground cinnamon
- 1/2 tsp (2 mL) baking soda
- 1/4 tsp (1 mL) salt
- 2 Ontario Eggs
- 2 cups (500 mL) Ontario Buttermilk
- 3 tbsp (45 mL) vegetable oil
- 4 large Ontario Apples, unpeeled, finely chopped (about 4 cups/1 L)
- 2 tbsp (25 mL) butter
- 1/2 cup (125 mL) packed brown sugar
- 1 tsp (5 mL) cornstarch
- 1/2 cup (125 mL) Ontario Maple Syrup

INSTRUCTIONS

Line 15- x 10-inch (38 x 25 cm) rimmed baking sheet with parchment paper, leaving a 2-inch (5 cm) overhang on long sides.

In medium bowl, whisk together flour, sugar, baking powder, 1 tsp (5 mL) of the cinnamon, baking soda and salt.

In large bowl, whisk together eggs, buttermilk and oil. Stir in 1-1/2 cups (375 mL) of the apples. Stir flour mixture into milk mixture just until combined. Pour batter into prepared pan and spread into an even layer. Bake in 425°F (220°C) oven for 20 to 22 minutes or until golden brown and toothpick inserted in the centre comes out clean.

Meanwhile, in medium saucepan, melt butter over medium heat. Add remaining apples and cinnamon, brown sugar and 3 tbsp (45 mL) water; cook, stirring often, until apples are tender, 5 to 7 minutes. In small bowl, whisk together cornstarch and 1 tbsp (15 mL) water, whisk into apple mixture. Boil, stirring, until thickened, 2 to 4 minutes.

Cut pancake into 12 squares, serve with apple compote and drizzle with maple syrup.

How to check if your iPhone or iPad camera automatically scans QR Codes

If you're unsure about which version of iOS your phone uses or you want to try to scan QR Codes without an app and would like to try your camera, use the following steps:

1. Open your Camera app and point it steadily for 2-3 seconds towards the QR Code you want to scan.
2. Whenever scanning is enabled, a notification will appear.
3. If nothing happens, you may have to go to your Settings app and enable QR Code scanning.
4. Open your Camera app and point it steadily for 2-3 seconds towards the QR Code you want to scan.
5. If QR Code isn't an option in your settings, your device, unfortunately, can't scan QR Codes natively. But don't worry, this only means you'll have to download a third-party QR Code reader app (see our app recommendations below).

How do I enable QR Code scanning on my iPhone or iPad?

By default, this new feature is enabled in all iOS 11 devices. But if for some reason your camera doesn't read QR Codes after the update or you have an older version of iOS, follow these steps:

1. Open the Settings app from your iPhone home screen.
2. Scroll down and tap on camera.
3. Find "Scan QR Codes" and enable it by making sure the switch is green.

Here is a QR code for you to practice with.
See where it takes you 😊
